XJTLU | PRESIDENT'S WELCOME 校长致辞

We are dedicated to transforming higher education by exploring new philosophies, models and methodologies. We aim to impact the lives of future generations through education and enhance society's ability to thrive by engaging in research, promoting social progress through service and inspiring civilisation with new forms of culture.

Over the past decade, we have developed our initial innovative educational model for globalised professional elites, an organisational management system powered by networks and platforms, an open ecological system enabling us to interact with our community and a national-level research and training centre for education leadership.

Our ambitions for the future are to:

- explore an 'Syntegrative Educational Model' to further develop industry elites and leaders addressing the challenges posed by artificial intelligence and robots
- to explore a new form of the University via the building of the XJTLU Entrepreneur College to complement our improved organisational management system
- to promote the ecology of innovation and a green society by drawing on our social resources from the University's intellectual assets and international knowledge network
- to enhance the capabilities of the research and training centre for education leadership to establish its domestic and international presence.

We welcome you to join our XJTLU community and let us know how we can help you. Together, we can continue to foster innovation and share best practices.

Join us on our journey to become a respected global academic-player, to continue contributing to the development of society and addressing new challenges in this ever-changing, momentous time in history.

中国高等教育改革的探路者

ILEAD

Since its founding, XJTLU has been at the forefront of China's educational reform and, as our reputation expands, other institutions are looking to us for inspiration and guidance on how to evolve and develop their own unique pedagogies in China.

Through our Institute of Leadership and Education Advanced Development (ILEAD), which was co-founded in 2013 with the National Academy of Education Administration, we have begun to promote and share our unique model of international education with other universities all over China.

ILEAD shares classical and advanced educational ideas, theories and important research findings to support the learning and teaching activities of universities around China through continuing professional development programmes, the annual WISHE Conference, teaching innovation awards, members-only published materials and consulting engagements.

The Postgraduate Certificate in Professional Studies in Learning and Teaching is a qualification in Higher Education designed specifically to support and advise university lecturers (or other staff) who are required to teach. The programme aims to provide an introduction to the knowledge and skills needed to support student learning, and is a key part of the university strategy for improving the student experience.

ILEAD is developing into the most proficient and systematic platform in the fields of educational research, training and dissemination in China and even worldwide.

SYNTEGRATIVE EDUCATION

As a pioneer in education reform, XJTLU is exploring a new education model called Syntegrative Education. The aim is to address the problems of the existing education system and the challenges of the artificial intelligence era, by developing internationalised high-end elites capable of meeting the demand of future society.

Moving away from the educational model of the past, which focused on training experts, professionals, and technical personnel in existing fields, Syntegrative Education integrates general, specialised, industry-based and management education to cultivate industry elites and leaders who are highly versatile with the ability to drive the industries of the future.

This new education model not only meets the demands of the future workforce, but also contributes to the reform and development of the Chinese economy, strengthening China's global influence and providing solutions for future international higher education.

Exploration of XJTLU Syntegrative Education can be divided into 'three stages' in its development strategy. It is implemented in three ways:

- Industry and Enterprise Tailored Education, which has already been launched at XJTLU;
- XJTLU Entrepreneur College (Taicang), which is in development stage;
- In collaboration with government and enterprises, the creation of an innovation community that facilitates the development of international elites and provides solutions for the problems future society faces.

融合式教育

作为教育改革者和重塑者，西浦正在探索一种新的“融合式教育”模式，旨在应对现有教育体系的问题和人工智能时代的挑战，培养符合未来社会需求的国际化高端融合式精英。

融合式教育不同于以往为培养专家或专业技术人才所提供的教育模式，它将通识教育、专业教育、行业教育、管理教育融合起来，在已有专业精英培养基础上，培养具有国际视野、能够驾驭未来新行业的行业精英和业界领袖。这种新型教育模式不仅能够满足未来的人才需求，而且将有助于中国经济的改革和发展，从而增强中国在全球范围内的影响力，并为未来全球高等教育提供一种方案。

西浦融合式教育的探索在发展战略上分“三步走”，主要包括以下三种形式：

- 一是已经全面启动的工业企业定制化教育；
- 二是正在筹备建设的西浦创业家学院（太仓）；
- 三是通过与地方政府和企业的深度合作，逐步营造利于融合式精英培养以及利于未来社会发展关键问题解决的创新社区和生态环境。

“XI'AN JIAOTONG-LIVERPOOL UNIVERSITY HAS GIVEN US A PRECIOUS INSIGHT FOR PRODUCING INNOVATIVE TALENTS IN CHINA'S HIGHER EDUCATION INSTITUTES. I HOPE THAT THE UNIVERSITY WILL MAKE FURTHER EFFORTS IN RESEARCH OF SINO-FOREIGN COOPERATION AND MAKE VALUABLE CONTRIBUTIONS TO THE DEVELOPMENT OF CHINA'S HIGHER EDUCATION.”

GUIREN YUAN
FORMER MINISTER OF EDUCATION
THE PEOPLE'S REPUBLIC OF CHINA

“西浦的探索为中国高校培养创新型人才提供了宝贵的经验。我希望西浦能够更加致力于中外合作办学的研究，为中国高等教育的发展作出更大的贡献。”

前中国教育部部长

西浦创业家学院（太仓）

作为探索融合式教育“三步走”中的第二步，西交利物浦大学与太仓市人民政府于2018年3月正式签署合作框架协议，在太仓市共同创立西浦创业家学院，探索培养能够站在人工智能和机器人肩膀上引领未来新行业的高端人才的教育模式、未来大学的新概念、未来大学校园的新模式。

通过大学与影响未来发展的行业领先企业的深度合作，西浦创业家学院将囊括多个共建行业学院（如：人工智能与先进计算学院、智造生态学院、智能机器人学院、产金融合学院、物联网学院、文化艺术科技学院等），在教育内容上将通识教育、专业教育、行业教育、管理和创业教育全面融合，在培养机制上将以学生为中心、研究导向型的学习和教学与在岗实训和创业全面融合；

Each School will be enhanced by integrated support system including an Innovation Factory; Community of Education, Research and Development Institute; Platform of Standard, IP and Accreditation; Entrepreneur and Innovation Hub; and Alliance of Industry and Society. This support will ensure the promotion and ultimately the realisation of XJTLU Entrepreneur College's vision to become an incubator for elites and leaders of new industries, and an influential example for future universities and campuses.

同时在校园中构建以“学习超市”为中心的、由“创新工场”、“研究和研发群落”、“标准、知识产权、质量和认证平台”、“创业与企业港”和“产业和社会联盟”等多圈围合的支撑平台，促进并最终实现西浦创业家学院成为“新行业精锐和领袖的摇篮，未来大学和校园的样板”的愿景。

“THE COOPERATION IS PART OF THE STRATEGIC PLAN OF XJTLU AND ALSO VERY MUCH IN-LINE WITH THE HIGH QUALITY DEVELOPMENT REQUIREMENTS OF TAICANG. I HOPE BOTH XJTLU AND TAICANG WILL GIVE FULL PLAY TO THEIR ADVANTAGES, ACCELERATE THE DEVELOPMENT OF COOPERATIVE EDUCATION, AND START INNOVATION AND ENTREPRENEURSHIP COOPERATION IN THE FIELDS OF ARTIFICIAL INTELLIGENCE AND NEW MATERIALS.

MEANWHILE, I HOPE BOTH SIDES CAN CONTINUE TO EXPAND COOPERATION AREAS AND ENHANCE THE LEVEL OF COOPERATION, AND LET MORE QUALITY EDUCATION RESOURCES, RESEARCH AND INNOVATION ACHIEVEMENTS, AND HIGH-END TALENTS TAKE ROOT IN TAICANG, WHICH WILL ADD A STRONG DRIVING FORCE FOR THE HIGH-QUALITY DEVELOPMENT OF THE AREA.”

MI SHEN
SECRETARY OF THE MUNICIPAL PARTY COMMITTEE OF TAICANG

“此次开展校地合作，既是西交利物浦大学战略布局的选择，也十分符合太仓高质量发展要求，对于太仓集聚高端要素、提升城市能级具有重要意义。希望校地双方充分发挥优势，加快合作办学项目建设，在人工智能、新材料等领域尽早开展创新创业合作，同时不断拓展合作领域、提升合作层次，让更多的优质教育资源、科研创新成果、高端人才在太仓落地生根，为太仓高质量发展增添强劲动力。”

“At XJTLU I pursued my dream of advocating for environmental responsibility. I was invited to share my ideas about environmental leadership at an AIESEC event in Hefei, China and at TEDxYouth, Suzhou. I represented my home country of Indonesia at the 21st United Nations Framework Conference on Climate Change in Peru - where I met Al Gore! Soon after, I was invited by Pakistan's Model United Nations to speak at their international forum. My experience was amazing and it would not have been possible without guidance and strong support from my University.”

GLOBAL STUDY

We support our students in becoming global citizens through a wide range of study abroad opportunities that help them build the perspective and cross-cultural skills needed to succeed in the international employment market.

Study abroad builds self-awareness, self-reliance and appreciation for other cultures. Our students report that studying abroad has made them better students and often inspires future career or study choices.

We offer short-term study options and summer schools in unparalleled academic settings. We are a member of the prestigious Study Abroad Foundation and regularly send students to spend part of their degree at one of the top 200 universities in Europe, United Kingdom and North America.

Many students on full-time XJTLU undergraduate degree programmes also have the opportunity to transfer to the University of Liverpool with the 2+2 study route, studying the first two years of their programme at XJTLU in Suzhou and the final two years at the University of Liverpool in the UK.

A growing number of inbound students join XJTLU for a semester or a year. In the University of Liverpool 'Year in China' programme and similar exchanges from other partner institutions, visiting students have the opportunity to take special China-focussed modules and to learn Chinese language, while continuing their major studies in English, if desired. At the same time, they contribute in a special way to the cross-cultural experience of all their classmates.
