

PhD studentship (Full-time)

Institution	Xi'an Jiaotong-Liverpool University, China
School	School of ...Advanced Technology.....
Supervisors	<i>Please list all the names in the supervisory team. It should be consistent with the information on your approved PGRS proposal.</i> Principal supervisor: Dr. Jingchen Wang..... (XJTLU) Co-supervisor: Professor Eng Gee Lim.....(XJTLU) Co-supervisor: Dr. Zhao Wang.....(XJTLU) Co-supervisor: Professor Yi Huang.....(UoL)
Application Deadline	Open until the position is filled
Funding Availability	Funded PhD project (world-wide students)
Project Title	...Technical Design and Implementation for High Spatial Freedom Wireless Power Transfer Utilizing Dynamic Adjustment.....
Contact	Please email...Jingchen.Wang...@xjtlu.edu.cn (XJTLU principal supervisor's email address) with a subject line of the PhD project title. The principal supervisor's profile is linked here: https://scholar.xjtlu.edu.cn/en/persons/JingchenWang.....

Requirements:

A Master's degree with Merit and a Bachelor's degree with first-class or upper second-class honors are required for PhD admissions. Exceptional candidates holding only a Bachelor's degree may be considered on an individual basis in certain disciplines.

Evidence of good spoken and written English is essential. The candidate should have an IELTS (or equivalent) score of 6.5 or above, if the first language is not English. This position is open to all qualified candidates irrespective of nationality.

Degree:

The student will be awarded a PhD degree from the University of Liverpool (UK) upon successful completion of the program.

Funding:

The PhD studentship is available for three years subject to satisfactory progress by the student. The award covers tuition fees for three years (currently equivalent to RMB 99,000 per annum). It also provides up to RMB 16,500 to allow participation at international conferences during the period of the award. The scholarship holders are expected to conduct the majority of their

research at XJTLU in Suzhou, China. However, they may apply for a short-term research visit to the University of Liverpool if the project requires it.

Project Description:

This project aims to explore and design a novel omnidirectional wireless power transfer (WPT) system to address the coverage and efficiency limitations of traditional directional WPT technologies in multi-device, randomly distributed, or mobile scenarios. The project will delve into the theory and techniques of transmitters for achieving uniform energy distribution within a region, focusing on multi-antenna arrays, spatial diversity/coding, and intelligent beam management methods. Simultaneously, the project will also investigate the design of high-efficiency, wide-angle receiving antennas and rectifying circuits suitable for omnidirectional reception. The research will encompass theoretical analysis, electromagnetic and circuit simulations, prototype fabrication, and experimental verification.....
