Job Title: Instructional Design TA

Position Overview:

Join the EDU Office as an Instructional Design TA and play a key role in shaping the future of learning. You will collaborate with our team of instructional designers and educators to create innovative, online, and blended learning experiences. This role offers a hands-on opportunity to apply learning theory and leverage emerging technologies—such as AI, H5P, and Extended Reality (XR)—to make education more efficient, effective, and engaging.

Key Responsibilities:

In this role, you will:

- **Design and Develop Learning Content:** Partner with EDU staff to design, structure, and build instructional materials and online courses for the XJTLU Learning Mall and other platforms.
- **Apply Innovative Pedagogy:** Utilize instructional design models and pedagogical principles to develop innovative teaching resources that support online and blended learning environments.
- **Create Engaging Digital Resources:** Produce high-quality multimedia content, including graphics, videos, and interactive elements, to enhance the learning experience.
- **Support Innovative Initiatives:** Contribute to projects that explore and promote cutting-edge educational practices, such as gamification and AI-enhanced learning.

What You Will Gain:

This role is designed to provide you with valuable, real-world experience, including:

- **Mentorship & Collaboration:** Direct experience working alongside experienced instructional designers and faculty to create impactful learning solutions.
- **Portfolio Development:** A portfolio of tangible projects demonstrating your skills in course design, multimedia production, and technology integration.
- **Skill Advancement:** Enhanced proficiency in industry-standard tools and emerging educational technologies.
- **Professional Growth:** Insight into the field of instructional design within a higher education setting.

Qualifications & Desired Skills:

- **Current Enrollment:** Currently enrolled in a graduate program at XJTLU or another accredited university.
- **Educational Passion:** A solid understanding of, or strong interest in, pedagogical principles and a passion for innovating teaching and learning practices (e.g., gamification, AI in education).
- **Technical Aptitude:** Familiarity with learning management systems (e.g., XJTLU Learning Mall) is beneficial.
- **Multimedia Skills (Preferred):** Proficiency in video editing (e.g., Camtasia, Adobe Premiere) and graphic design software (e.g., Adobe Photoshop, Illustrator) is a strong advantage.
- **Emerging Tech Skills (A Plus):** Experience or interest in creating XR/VR/AR experiences using tools like Unity is highly welcomed.
- **Language Proficiency:** Excellent command of written and spoken English.

To Apply:

Please submit your CV, a cover letter, and a portfolio of relevant work (e.g., instructional materials, graphic designs, or project samples) to Nuria Benavent-Esteve at Nuria.BenaventEsteve@xjtlu.edu.cn.
