

# 4 ways to use Mentimeter in your class

Discover four ways to boost student engagement and participation in your classes using the online platform Mentimeter.

1

## Use it to start with an icebreaker

Use Mentimeter's word clouds or quick polls at the beginning of class to break the ice and check prior knowledge.

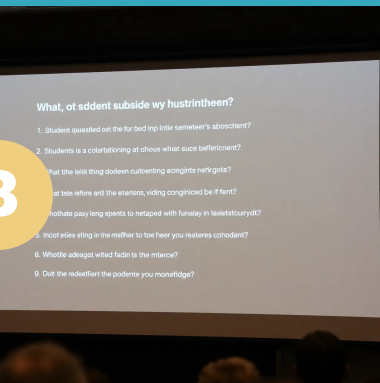

## Use its live quizzes for formative assessment

Create short quizzes to gauge understanding in real time - this can help identify where students need more support.

2

3

## Encourage discussion with its open-ended questions

Collect anonymous responses to open questions to spark debate and ensure every student's voice is heard.

## Use it to gather feedback efficiently

End sessions with a quick feedback slide to learn what worked well and what could be improved for next time.

4

Interactive tools can help enhance your students' engagement and participation. Try Mentimeter at [mentimeter.com](https://www.mentimeter.com) - it's free!
