# MESSAGE FROM THE EXECUTIVE PRESIDENT
# 领导者寄语

Since its establishment, XJTLU has been committed to becoming a leader in future education. The rapid developments in artificial intelligence and other sciences and technologies are quickly changing human life, the definition of talent, and the need for education. We urgently need to rethink and reshape education and redefine the university.

In 2022, XJTLU unveiled its visionary Five-Point Star Strategic Blueprint, outlining a comprehensive strategy for the next five years. This new strategic framework is built around the vision, mission and educational philosophy of the University and is supported by three unique educational models to optimise and expand the institution's extensive network of resources and partnerships.

XJTLU's 1.0 model innovates and upgrades traditional programme-based education; XJTLU's 2.0 model explores Syntegrative Education, through which we collaborate with industry to cultivate future industry elite professionals and leaders; and XJTLU's 3.0 model is focused on creating an innovation ecosystem that is part of the wider society (university, industry and society).

By actively engaging in research endeavours, conducting experiments, and fostering partnerships with industries, XJTLU seeks to forge connections that resonate across diverse educational dimensions including preschool, primary, secondary, and professional education. This strategic endeavour aligns seamlessly with the University's overarching mission to reshape and profoundly impact the field of education, all while remaining dedicated to its role in serving society at large.

In 2020, we upgraded the XJTLU Learning Mall, which was established in 2017, to support the effective implementation of our educational strategy, to provide a digital intelligence technology support platform for the grand layout of its educational exploration, and to ensure the efficient running of our complex educational systems and models. The Learning Mall integrates global education resources, provides a world-leading lifelong learning platform that integrates the digital world and reality, transcends geographical and time zone constraints, and creates a global community of learners, while aiming to promote a new educational ecosystem that is interest-driven, personalised, and serves lifelong learning, innovation and entrepreneurship. Building on this approach, XJTLU has further launched its X-Eco Mall. Continuing the operational philosophy and experience of the Learning Mall, it aims to collaborate with the Entrepreneur College (Taicang) and other academies and offices to extend into more industrial fields, building a shared, symbiotic, and mutually beneficial industrial ecological platform.

Looking ahead, XJTLU will continue to enhance the multilocational delivery of education with even greater student and staff mobility. We will further advance our problem-driven, research-led educational approach, strengthen research infrastructure and support, and establish more centres of excellence across diverse fields. By leveraging an integrated "industry-university-research-government-society" ecosystem, the University will extend its reach through social engagement and service. Through the adoption of flattened, networked, and intelligent governance and management models, we will reconstruct how the University operates. At the same time, we will deepen the educational and research partnerships and collaborative development with our parent universities, Xi'an Jiaotong University and the University of Liverpool.

We welcome you to be a part of our XJTLU community. Become a future-oriented talent, contribute to the development of society, address new challenges, and seize the opportunities in this momentous time in history. Together, we can continue to foster innovation and share best practices.

创校至今，西交利物浦大学始终致力于成为未来教育领域的开拓者和引领者。当前，迅猛发展的人工智能等科学技术正在快速改变人类的生活、人才的定义以及教育的需求，我们亟需反思教育、重塑教育、再定义大学。

西浦在2022年发布了新的五年战略（2022-2026）——五星教育发展蓝图。在新战略指导下，西浦以大学的愿景、使命和教育理念为基础，以三种独特的教育模式为支撑，充分利用和拓展学校的资源网络和合作伙伴关系。西浦1.0模式创新和升级了传统的专业精英教育；西浦的2.0模式探索培养行业精英和领袖的融合式教育；而西浦3.0模式则致力于打造创新生态系统，促进大学、产业和社会的进一步融合，同时通过研究、实验及与业界合作向教育产业多维度延伸，覆盖学前、小学、中学以及新型职业教育，从而使西浦能够更好地履行其重塑和影响教育、服务社会的使命。

为了支持教育战略的有效实施，西浦于2020年完善和丰富了2017年建立的"学习超市"，为其教育探索的宏大布局提供了数智技术支撑平台，确保了西浦多模式、多层次的教育系统的高效运行。西浦学习超市整合全球教育资源，致力于为学生提供数实融合的、跨越地域和时区限制的、全球领先的终身学习平台，营造全球学习者社区，旨在促进兴趣驱动的、个性化的、服务终身学习及创新和创业的新型教育生态系统。在此基础上，西浦进一步启动了"生态超市"建设，延续学习超市的运营理念与经验，致力于与产业家学院及各学院协同，拓展至更多产业领域，构建共享、共生、共赢的产业生态平台。

展望未来，西浦将进一步优化多校园教育体验、为师生提供更具弹性的教育选择。同时，西浦将深入推进以问题驱动的研究导向型教学模式，大力提升科学研究基础设施和支持，创建更多研究领域的卓越中心；将继续依托"产学研政社"的生态以社会服务拓展大学边界；通过推行扁平化、网络化、智能化的治理模式和管理体系重构大学运行逻辑，并不断深化与西安交通大学和利物浦大学两所母校的协同发展。

欢迎您，与西浦同行。我们携手踏上征程，一同应对这瞬息万变时代下的严峻挑战，把握其所带来的机遇，为未来培养更多的人才和建设更美好的社会贡献才智与力量！

# EDUCATION MODELS (1.0, 2.0, AND 3.0)
# 西浦教育模式（1.0, 2.0, 3.0）

XJTLU has developed its education models 1.0, 2.0, and 3.0 that have enabled the University to make a meaningful impact on education both in China and around the world.

We have received wide recognition both domestically and internationally for our efforts in the exploration of future educational models, building network structures between knowledge organisations, cultivating the relationship between universities and society, and our work in the development of higher education in China and the world.

西浦立足未来发展趋势与自身特色，先后部署了西浦教育模式1.0、2.0和3.0，以实现西浦影响中国甚至世界教育发展的大学使命。

西浦从未来教育和办学模式的探索、知识组织（大学）网络化支撑体系的营造、大学与社会互动关系的培育、影响中国和世界教育平台的建设四个方面开展研究和实践，受到了社会各界的充分认可。

## XJTLU 1.0

**This model was implemented in 2006 when the University was first established. It focuses on revitalising the preparation of elite professionals by renewing traditional models of higher education.**

In this XJTLU 1.0 model, we apply wisdom from both Chinese and Western cultures – the flexibility of the American educational system, the emphasis on robust quality control from the British system, and the focus on building fundamentals in the Chinese system. We then integrate those key features into a new educational and quality control system that centres on the needs of students by focusing on interest-driven and research-led approaches, learning proactively, cultivating capabilities, integrating knowledge, and improving overall quality.

## 西浦 1.0

**自2006年建校之初部署，旨在对传统专业精英进行创新与升级，专注于国际专业精英教育。**

在1.0模式中，东西方文化与精粹在西浦碰撞出智慧的火花。西浦借鉴美式教育的灵活性、英式教育的质量控制体系、中式教育的重知识基础等优点，融合创新出自己的教育模式和质量保障体系，以学生为中心，强调兴趣驱动、研究导向、主动学习、能力培养、知识整合、素养提升。

## CULTIVATING GLOBAL CITIZENS

The University has over 25,000 registered students, including those who are studying at the University of Liverpool. XJTLU is committed to creating an internationalised environment, where education quality is stringently monitored and students are encouraged to manage their own lives, guided by the University. At XJTLU, students are treated as young adults. They are called on to be independent, self-motivated and cooperative, and they are expected to become global citizens with international perspectives.

The XJTLU 1.0 model, which reformed the educational preparation of specialised elite professionals, has gradually matured over 20 years of trials. Looking forward, the University will continue to innovate and upgrade XJTLU 1.0, mainly in the Suzhou Industrial Park (SIP) campus.

经过20年探索，西浦1.0模式已臻成熟。未来，在苏州工业园区校园，西浦将进一步萃取融合式教育的优秀理论，继续创新和升级1.0模式，探索和优化具有行业背景的国际化专业精英教育模式。

“XI'AN JIAOTONG-LIVERPOOL UNIVERSITY HAS GIVEN US A PRECIOUS INSIGHT FOR PRODUCING INNOVATIVE TALENTS IN CHINA'S HIGHER EDUCATION INSTITUTES. ## XJTLU 2.0

**This model focuses on nurturing future industry leaders by reinventing Syntegrative Education for the 21st century.**

With the imminent arrival of a digital-, AI- and robotics-enabled era, XJTLU looked far into the future. By continuing to strengthen our existing 1.0 educational model while launching an entirely new model in 2017 known as Syntegrative Education, XJTLU embraced the future. The new model, XJTLU 2.0, aims to deliver international industry experts with the ability to use AI and robotic technologies to lead future industry development.

We strengthened the robustness of our general education and deployed the Industry and Enterprise Tailored Education Programme to improve knowledge in relevant industry sectors.

In addition, as part of the 2.0 model, we established the XJTLU Entrepreneur College (Taicang), where we carefully selected a series of disciplines that are expected to have a meaningful impact on human development, and launched various industry-focused academic programmes through strong partnerships with reputable domestic and international companies within these sectors.

With the improvement of general education and technical expertise, in particular sector knowledge, students can develop a very strong command of integration skills, creativity, a willingness to explore, and the ability to use the tools available to them.

## 西浦 2.0

**探索新时代融合式教育(SE)，专注于未来产业领袖培养。**

面对已经到来的数字、人工智能和机器人时代，西浦瞄准未来，超前布局，于2017年——建校第二个十年时启动和开创了全新的“融合式教育”（Syntegrative Education，简称SE），亦即西浦2.0模式，旨在继续完善西浦1.0模式的基础上，创建能够整合行业知识、站在人工智能和机器人肩膀上、引领未来行业发展的国际化行业精英的教育模式。

西浦2.0在强化通识教育的基础上，将专业教育、行业教育、管理和创业教育相融合，旨在培养能引领未来行业发展的国际化行业精英。

其一，通过强化素养教育和IETE（Industry and Enterprise Tailored Education）项目升级西浦1.0模式，即提升专业精英培养的行业背景。

其二，通过西浦创业家学院（太仓），选择对未来人类发展具有重大影响的若干关键行业，通过与该领域国内外著名企业联姻，创建相关行业学院，帮助学生在提升素养和掌握专业特别是行业知识的同时，获得极强的整合能力、创造性、开拓精神以及管理和驾驭能力。

## XJTLU ENTREPRENEUR COLLEGE (TAICANG)

XJTLU Entrepreneur College (Taicang) opened in September 2022 with a total capacity for 7,000 students. The Syntegrative Education model works closely with our industry partners to set the overall vision and missions for each industry-themed school, and they jointly collaborate on developing course curricula, with industry partners involved throughout the training process.

The goal is to enable the schools to stay current with company and sector developments, and create an academic, research, training, entrepreneurial, and industry platform that can help train forward-looking, international syntegrative talents with leadership potential and industry expertise.

The Taicang base was designed with entrepreneurialism, industry, interdisciplinarity, and the community in mind. The main building has a circular structure linking its magnet-shaped schools, connecting them physically and symbolically. XJTLU Entrepreneur College (Taicang) is composed of the School of Intelligent Manufacturing Ecosystem, School of AI and Advanced Computing, School of Intelligent Finance and Business, School of Robotics, School of Internet of Things, Academy of Film and Creative Technology, School of CHIPS, and the Entrepreneurship and Enterprise Hub.

## 西浦创业家学院（太仓）

西浦创业家学院（太仓）校园于2022年9月开放，逐步实现七千到一万在校生办学规模。融合式教育模式将与联姻行业伙伴一道确定各行业学院愿景和使命，共同开展课程建设和参与培养过程，积极推进学院与企业行业发展的对接互动，搭建学、研、训、创、产创新平台，为未来社会培养更多具有前瞻性和引领者潜质的国际化行业精英。

新形态的校园设计体现了创业家精神、产业、跨学科和社群的理念。其主体建筑以环状结构的学习超市为核心，连接磁铁形状的建筑，代表智造生态学院、人工智能与先进计算学院、产金融合学院、智能机器人学院、物联网学院、芯片学院、影视与创意科技学院和创业与企业港。

We are proud of our focus on research-led learning inherited from our parent institutions, Xi'an Jiaotong University and the University of Liverpool.

Xi'an Jiaotong University is a leading research-intensive university, focusing on science and technology subjects. It was prioritised by the State Council of China in the national Project 211 and Project 985, which both aim to strengthen universities in China to create world-class institutions.

The University of Liverpool is a member of the Russell Group, a collection of 24 UK universities with a shared reputation for academic prestige. Other members of the group include the universities of Oxford and Cambridge, Imperial College, and University College London.

The quality of our programmes is ensured through a rigorous quality assurance system established in line with the requirements of the UK's Quality Assurance Agency, supported by high-calibre scholars in the UK and in China.

We offer programmes of study at undergraduate, master's and PhD levels, as well as a growing list of executive and professional development opportunities, and short and summer courses.

我们从西安交通大学和利物浦大学这两所母校承袭了研究导向学习的优良传统，并以此为傲。

西安交通大学是全国重点综合性研究型大学，“985工程”首批重点建设的九所高校之一，被国家确定为以建设世界知名高水平大学为目标的教育部直属全国重点大学。

利物浦大学是罗素大学集团的成员之一。罗素大学集团由24所因学术质量而享有极高声誉的英国大学组成，除利物浦大学之外，罗素大学集团的成员还有牛津大学、剑桥大学、帝国理工学院和伦敦大学学院等。

西浦课程质量严格遵循质量保证体系，符合英国国家教育质量评定委员会标准。同时，高水准的教学团队和从全球招聘的国际知名学者，也为我校教学质量提供了有力保障。

我们现已开设了本科、硕士、博士的学位教育。此外，还推出了一系列高管教育和职业发展的教育培训项目，以及短期、暑期和语言课程。

Since they were established, numerous programmes in the School of Science, School of Mathematics and Physics, Design School, International Business School Suzhou, School of Advanced Technology, and more, have been accredited by authoritative international organisations.

International Business School Suzhou is one of the few business schools in the world to have received Triple Crown Accredited status, holding AACSB, AMBA and EQUIS accreditations.

In addition, the University has entered the Essential Science Indicators (ESI) Top 1% in the fields of engineering, computer science, social sciences (general), environment/ecology, economics/business, chemistry, and materials science.

These international accreditations and rankings demonstrate the quality of education and research at XJTLU, and directly enhance the competitiveness of graduates for further studies in the world's top universities and for employment in global industry bodies and international business organisations.

自建校以来，西浦理学院、数学物理学院、设计学院、西浦国际商学院、智能工程学院等学院的众多专业和课程获得国际权威组织认证。其中，西浦国际商学院是全球少数享有盛名的AACSB、AMBA、EQUIS三冠认证的商学院之一。

"Studying at XJTLU was one of the best decisions that I've ever made. I met lifelong friends at the University. The courses were great, and I learned a lot from really good professors. One module that I found particularly interesting was International Marketing. It summed up what I learned throughout my university life: marketing theories, customer behaviours, international trading environment, and their impact on the marketing activities of global businesses. Studying at XJTLU has expanded my perspective and helped me find the right career path. I joined one of the leading expert network companies called Atheneum Partners last year and quickly got promoted to team leader, stepping two positions at a time. I'm now working at an expert network services company based in Seoul."

## GLOBAL STUDY

We support our students in becoming global citizens through various study abroad opportunities that help them build the perspective and cross-cultural skills needed to succeed in the international employment market.

Study abroad builds self-awareness, self-reliance and appreciation for other cultures. Our students report that studying abroad has made them better students and often inspires future career or study choices.

We offer short-term study options and summer schools in unparalleled academic settings. We are a member of the prestigious Study Abroad Foundation and regularly send students to spend part of their degree study in some of the top 200 universities in Europe and North America.

## 国内外校际交流

西浦为学生提供一系列国内外校际交流机会，帮助学生拓展视野，获得在国际就业市场竞争中所必需的知识、技能以及跨文化交流能力。

海外学习的经历不仅锻炼了学生在学习和生活方面的自觉性和自主性，还帮助他们加深了对不同文化的认知和理解。大部分参加过海外交流的学生表示，这段经历对他们的成长很有帮助，甚至激发和影响了他们对将来留学和职业发展的选择。

西浦与许多世界排名前200的名校合作开设了交流访学项目，学生可以申请前往世界各地的名校，并获得相应学分。此外，我校已加入SAF海外学习基金会（Study Abroad Foundation），在全球范围内向学生提供高水平的海外学习项目。

Many students in full-time XJTLU undergraduate degree programmes also have the opportunity to transfer to the University of Liverpool with the 2+2 study route, studying the first two years of their programme at XJTLU in Suzhou and the final two years at the University of Liverpool in the UK. For some programmes, there is also the option to study at Xi'an Jiaotong University for a year. Students on certain undergraduate programmes at XJTLU Entrepreneur College (Taicang) will be offered the opportunity to study at the University of Liverpool for one year on a custom designed mobility programme designed to enhance their academic and entrepreneurial skills.

A growing number of inbound students join XJTLU for a semester or a year. In the University of Liverpool's "Year in China" programme and similar exchanges from other partner institutions, visiting students can take special China-focused modules and learn Chinese while continuing their major studies in English, if desired. At the same time, they contribute in a special way to the cross-cultural experience of their classmates.

西浦许多专业的本科生可以选择2+2模式完成四年本科学业，即前两年在位于苏州的西交利物浦大学学习，后两年前往英国利物浦大学完成学业。西浦创业家学院（太仓）特定本科专业的学生有机会在大三参加为期一年的利物浦留学项目（2+1+1），旨在提高学生的学术和创业技能。

此外，西浦部分专业已与西安交通大学合作开设访学项目，学生可申请大二前往西交大进行为期一年的访学。

## CENTRAL CAMPUS

The campus plan and science buildings of our Central Campus were designed by Perkins&Will, one of the world's top 10 architectural design firms. The auxiliary landscape design of the campus combines the modern, stylish and minimalist style of the West with the traditional Chinese garden landscape and plants.

The Central Building was designed by Aedas, the fourth-largest architectural firm in the world. The building design was inspired by the Taihu Stone, the first of the four famous stones in ancient China. The spatial division of the building is sliced like the Taihu Stone, symbolising the independence and integration of knowledge fragments.

The building was awarded the 2009 Asia-Pacific Commercial Real Estate Architecture Award by CNBC, which is one of the global awards representing the highest level of design and architecture in the commercial real estate sector.

## 中校区

西浦中校区的校园规划和理科楼群由全球十大建筑设计公司之一的美国帕金斯威尔（PERKINS&WILL）建筑设计事务所设计完成。校园的辅助景观设计融合了西方现代、时尚、简约的风格与中国传统园林山水植物的意境。

西交利物浦大学的中心楼由全球第四大建筑事务所——英国凯达环球（Aedas）设计完成。该楼的设计概念源于中国古代四大名石之首“太湖石”，整座大楼如太湖石般切片的空间分割，象征着知识碎片的独立与整合，大楼内部通透的空间设计与使用功能紧密衔接。中心楼获得CNBC评选的2009年亚太区商业地产建筑奖，该奖项是代表商业地产领域设计与建筑最高水准的全球性奖项之一。

# CITY AND UNIVERSITY
# 名城与名校

We have been part of eastern China's development into one of the world's economic powerhouses. Our strategic locations in the Suzhou Dushu Lake Science and Education Innovation District (SEID) of Suzhou Industrial Park (SIP) means we have unrivalled business connections and opportunities for industry collaboration. So far, Suzhou has attracted 175 multinational companies from the Fortune 500. Most are in SIP, one of the most vibrant centres of business activity worldwide.

The expertise found in SIP stresses advanced industries including electronic information, advanced manufacturing, high-tech solutions, biomedicine, new-generation information technology, nanotechnology, and artificial intelligence. In 2024, the output value of Suzhou's high-tech industries exceeded 2.5 trillion RMB.

XJTLU's orientation towards applied research enhances SIP's infrastructure and reputation. XJTLU attracts additional research talent to the city and contributes to its global research reputation. Together, we are also developing new approaches to innovation, technology, knowledge transfer, and commercial enterprise through research innovation resources and platforms.

The unwavering support we have received from SEID, SIP, the Department of Education in Jiangsu province, and China's Ministry of Education has made us who we are today and will ensure our continued development into a truly global research-led university in China.

身处中国长三角地区这一世界经济增长驱动区域之一，西浦一直致力于为当地发展贡献力量。学校所处的独墅湖科教创新区，位于苏州工业园区核心地带，为大学发展带来了无与伦比的、与产业界无缝链接的合作机遇。

苏州市迄今已吸引了175家境外世界500强跨国公司，其中众多企业落户于苏州工业园区。苏州工业园区正在成为全球最具活力的商业活动中心之一。园区重视发展包括电子信息、先进制造、高新技术、生物医药、新一代信息技术、纳米技术和人工智能在内的高科技前沿产业。2024年，苏州市高新技术产业产值达25726.3亿元。

西浦所开展的应用型研究进一步加强了苏州工业园区的科研基础，为苏州吸引了更多的科研人才，并为苏州在全球范围内的科研声誉做出了贡献。此外，校地双方致力于通过科研创新资源和平台的合作，共同培育一个促进知识、技术转移和商业转化，推动创新和创业的国际生态网络。

一直以来，西浦得到了独墅湖科教创新区、苏州工业园区、江苏省教育厅和国家教育部的大力支持。未来，在其一如既往的关怀与帮助下，西浦将真正发展成为中国土地上研究导向的国际大学。

Likewise, XJTLU's Taicang base, which opened in September 2022, affords the University another location among growing enterprises. The highly developed city enjoys close industrial ties to nearby Shanghai. Two types of industry in Taicang – high-end equipment and advanced materials – have achieved a minimum annual industrial output exceeding 100 billion RMB. The local government encourages development of emerging industries and is placing special attention on the aviation and biomedicine industries. Major international corporations with operations in the city include ExxonMobil, Bosch and P&G. More than 500 German companies are located in Taicang.

与此同时，西浦创业家学院（太仓）校园于2022年9月启用，为大学发展注入新动能。太仓是苏州市所辖县级市，与邻近的上海市有着密切的产业联系，得益于优越的地理位置，积淀了雄厚的经济基础。太仓的高端装备制造和先进材料产业的年工业产值已双双迈上千亿级台阶。太仓市政府鼓励发展新兴产业，特别关注航空和生物医药产业。太仓有500多家德资企业，埃克森美孚、博世、宝洁等众多世界知名企业已落户太仓。

"WE HOPE THAT XJTLU WILL CONTINUOUSLY INNOVATE ITS TALENT TRAINING MODEL, EXPAND ITS INFLUENCE AND FURTHER CULTIVATE HIGH-LEVEL TALENTS."
